Tips for DIY CD Creation

- Use “audio” option when writing CD (not Data MPG)
- Do not burn at a too high speed, we recommend 16x
- Allow a 1 or 2 second pause at the beginning of each track - no more
- Use the list (see over) to put tracks in that specific order. Do NOT put brides entrance song first for example. If putting reception songs onto the CD as well, please do so in this order:
 1. Guests entering
 2. Brides/bridesmaids entrance
 3. Signing Register
 4. Exit
 5. Reception Entrance
 6. Cutting Cake
 7. Bridal Waltz
 8. Garter/Bouquet toss (if applicable)
 9. Reception Exit
- Please bring or send your new CD to our office by the Wednesday before the wedding so we can test it's compatibility with our CD player and make sure it works!
- Please supply us with a written list of the tracks and their artist (as per overleaf) and we will still provide the cover artwork.
